Dear Mr. Dobson:

Re: Tentative Approval - Permit Revision, Continental Lime, Inc., Cricket Mountain Quarry, M/027/006, Millard County, Utah

On August 20, 1992, the Division granted tentative approval to Continental Lime for a permit revision to their Cricket Mountain Quarry. The tentative approval letter identified a number of permit deficiencies which required additional information. We met with Mr. David Krohn on November 18, 1992, to discuss the remaining deficiencies and the requisite information which would enable us to grant final approval of the permit revision.

We would like to finalize the approval process as soon as possible. Consequently, we hereby establish a February 15, 1993 deadline for receipt of Continental's response to the outstanding deficiencies and for submittal of the updated \$268,865 surety. The 30-day public comment period has expired. No comments were received, other than a recommendation from the Division of Wildlife Resources to implement supplemental sources of water (eg., guzzlers) for local wildlife species.

Please contact us immediately if you will be unable to meet the February 15th timeframe. Please contact Holland Shepherd or me if you have questions regarding the contents of this letter.
